Isenberg Real Estate Fund

# **Property Photos**

# **Opportunity Overview**

- **Opportunity**: \$32.4 Million (48% LTC, 61% Permanent Refi LTV) 2025 Class A Mixed Use Ground-up Development in Fishers, Indiana. The City of Fishers is granting municipal incentive of \$9,400,000 as a nonrepayable investment, reducing the all-in cost basis. Project funding is targeted to close early December, with the following 14-month construction period set to finish in March of 2025. The development will be comprised of five buildings total (76 Residential Units, 2256 SF Retail, 22734 SF Office). 78% of the commercial spaces are currently pre-leased.
- Key Strengths: Class A, newly constructed mixed-use development in a high growth market. Well-located on major routes and relative proximity to local school system. Strong forward leasing (78% pre-leased commercial spaces). Lower construction costs (\$9.4M grant from The City of Fishers).
- Key Considerations: The major risk with this development is potential issues with construction disrupting the investment timeline. Development projects are inherently risky and can be affected by obstacles that arise in the construction process. Another risk is not getting the project fully leased by the time construction is finished. Higher vacancy numbers could diminish returns for investors.

# **Fishers Demand Drivers**

The Indianapolis metro is home to the state's top universities. It continues to benefit from a state-wide focus to reinvest in education. As a result, the state has the third highest rate of higher education in the Midwest, fostering a growing, young, talented, and educated labor force increasingly choosing to call this their permanent place of residence.

### Diverse Employment

The Fishers Submarket boasts strong forward-looking employment growth backed by their healthcare and tech industries. According to the Indiana Department of Workforce Development, the Fishers region is expected to add 95,000 jobs by 2030, a 9.2% increase. Major employers in the region include St.Vincent Hospitals, IU Health, and Eli Lilly.

### Leader in Life Sciences

()) Telix

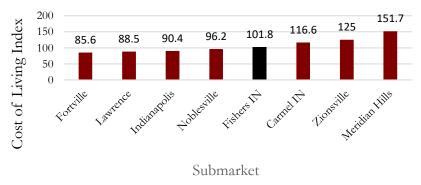

QUANTIGEN. (SG, Stevanato Group

Over the past 4 years, several life-science companies have moved or announced movement to station in Fishers. This migration promises the creation of hundreds of new high wage medical tech jobs by 2025.

# Floor Plans

# Rebar Development

Development Partner: Rebar Development Rebar Development has successfully developed nearly \$200M in public-private partnership projects over the past 5 years including over \$72M in municipal incentives and \$40M in third-party equity. Shelby Bowen leads the charge with a unique approach to mixed-use development projects and a passion for improving communities throughout Indiana.

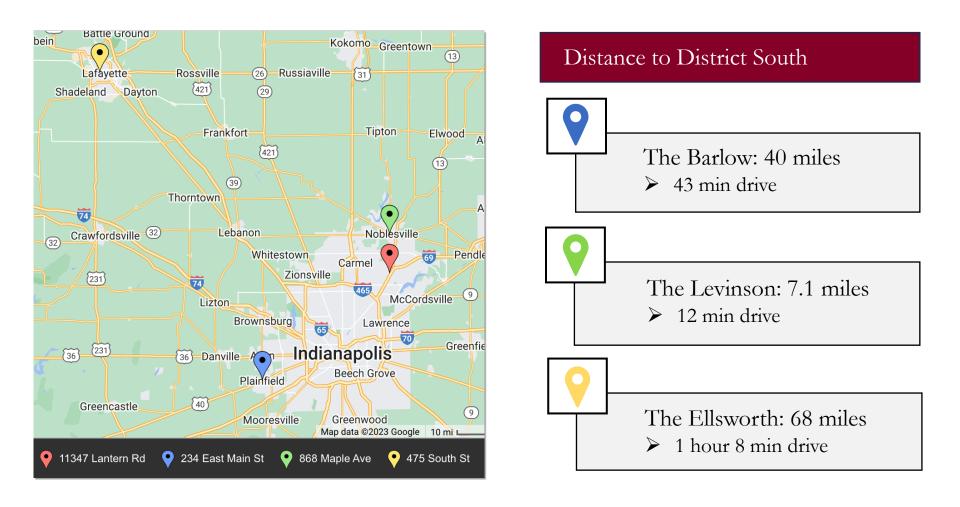

The Barlow: 100% leased in under 45 days after completion

The Levinson: 100% leased 15 days after completion

The Ellsworth: 100% pre-leased 60 days *before* completion

# Map of Historic Rebar Development Projects

### The Annex Group

Indiana-based multi-family housing developer, general contractor, property manager and owner. The group has re-developed and constructed over \$1 billion in residential projects, making up a portfolio of communities valued at more than \$500 million. Specializing in affordable, workforce, student and market-rate housing communities, The Annex Group is ranked #67 in largest Indiana Private Companies. The anchor tenant is expected to relocate roughly 83 employees making an average salary of \$94,000 to the new HQ at District South and hire 40 more employees by the end of 2027.

### Acuity ES

Acuity Environmental Solutions, based in Indiana, specializes in providing comprehensive environmental consulting services. The company is known for its expertise in environmental assessments and remediation planning. They work closely with clients to address environmental challenges, ensuring sustainable and responsible practices. Acuity has grown into a multi-million dollar business that focuses heavily on regulatory compliance.

### Osborn Insurance

Osborn Insurance is a small insurance company founded in 2005. They operate out of Fishers, IN and serve the local communities, consisting of small to medium sized businesses, and offer insurance plans that suit every income group in the area. Osborn Insurance is backed by Erie Insurance, a Fortune 500 insurance company. Erie Insurance received an A rating from A.M. credit rating agency and was voted #1 in customer satisfaction in a survey done by JD Power.

# Investment Strengths and Risks

#### Strengths

#### 1. Municipal Grant

- The City of Fishers is securing a bond to be allocated as the first \$9.4M dollars into the District South Project. This funding will be designated as a non-repayable grant, signifying the immense financial commitment by the municipality for housing and community development.
- This will result in a substantial reduction in project costs on an all-in basis while also enhancing overall return metrics.

#### 2. Developer Track Record

- Rebar Development has successfully executed three recent mixed-use developments in the region with optimal lease-up pre-development.
- This shows this project is a proven strategy supported by the optimal performance of the last few projects.

#### 3. Sequence of Capital for Development

• The initial phase of development is being financed through the municipal bond, providing a safeguard for investor equity in the event of construction or lease-up failure in the early stages of development.

#### 4. Commercial Tenant Risk Exposure

- The diversified commercial tenant base encompasses several reputable firms spanning real estate development, environmental consulting, insurance, and other sectors.
- These smaller executive suites provide a hedge against overall vacancy for the property.

### Risks

- 1. Development Timeline
- The development period accounts for a 14-month duration, considering the possibilities of unforeseen economic events that could affect workforce or supply chain.
- MITIGANT: Strong pre-leasing activity for the remainder of the smaller units is not of immediate concern, also given the fact that these rents are modeled in at 5-10% below market.

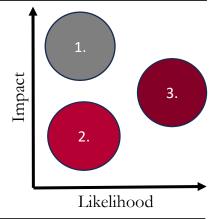

#### 2. Commercial Rents Essential

- The Property is anchored in commercial tenants, with potential downside contingent upon lease covenants.
- MITIGANT: The largest commercial unit (12,800SF) is anticipated to be signed by Annex HQ early December. The smaller remaining units are promoted below the market rent and are experiencing notable demand.

#### 3. Office Commercial Space

The property incorporates 22,734SF of office space, presenting potential risk given the current diminished demand for office spaces.

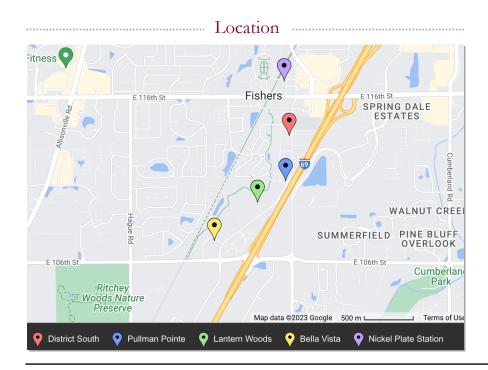

MITIGANT: The primary office tenant *Annex HQ* is poised for pre-leasing, relocating from their existing HQ down the street, while subsequently planning to sell the current HQ after move-in.
